Course: Production and Operations Management

Operations management is important, exciting, challenging and everywhere you look!

- Important, because it enables organizations to provide services and products that we all need
- Exciting, because it is central to constant changes in customer preference, networks of supply and demand and developments in technology
- Challenging, because solutions must be financially sound, resource-efficient, as well as environmentally and socially responsible
- And everywhere, because in our daily lives, whether at work or at home, we all experience and manage processes and operations.
