

Advanced Placement AP & High School courses

AP gives students the chance to tackle college-level work while they're still in high school – whether they're learning online or in the classroom. By taking AP Exams students can earn college credit and placement. It gives them the opportunity to experience college-level work and gain in-depth knowledge of a subject, develop deep passion for a subject and provides a competitive edge with university admissions process worldwide.

SCIENCES

Biology: A Global Approach, 12th Edition

Neil A. Campbell, Lisa A. Urry, Michael L. Cain, Steven A. Wasserman, Peter V. Minorsky, Jane B. Reece & Rebecca A Orr

Print textbook 9781292341637

eText 9781292343099

Mastering + eText 9781292357744

Pack of print textbook + Mastering with eText 9781292345864

Biology: A Global Approach delivers a trusted, accurate, current, and pedagogically innovative experience that guides students to a true understanding of biology. It works hand in hand with Mastering Biology to reinforce key concepts, build scientific skills, and promote active learning. The 12th Edition meets demonstrated learner needs with new student-centered features, expanded interactivity in the eText and fully revised assessment program.

Campbell Biology: Concepts & Connections, 10th Edition

Martha R. Taylor, Eric J. Simon, Jean L. Dickey, Kelly A. Hogan & Jane B. Reece

Print textbook 9781292401348

eText 9781292401430

Mastering + eText 9781292402017

Pack of print textbook + Mastering with eText 9781292402031

This text continues to introduce pedagogical developments that create an innovative learning experience and motivate students not only to learn, but also interact with biology. The hallmark modular organization built around central concepts helps students stay focused while engaging them in connecting biology with the world outside the classroom. This new edition offers additional digital resources and provide tools that address how students learn today, such as bite-size vignettes and new videos.

Campbell Biology in Focus, 3rd Edition

Lisa A. Urry, Michael L. Cain, Steven A. Wasserman, Peter V. Minorsky & Jane B. Reece

Print textbook 9781292324975

eText 9781292362809

Mastering + eText 9781292325217

Pack of print textbook + Mastering with eText 9781292325194

Maintaining the Campbell hallmark standards of accuracy, clarity and pedagogical innovation, the Third Edition builds on this foundation to help students make connections across chapters, interpret real data and synthesize their knowledge. The latest edition integrates new, key scientific findings throughout and offers more than 450 videos and animations in Mastering Biology to help students actively learn, retain tough course concepts and successfully engage with their studies and assessments.

Campbell Essential Biology with Physiology, 7th Edition

Eric J. Simon, Jean L. Dickey, Jane B. Reece & Rebecca A. Burton

Print Textbook 9781292307091

Mastering + eText 9781292307268

Pack of print textbook + Mastering with eText 9781292307220

Help students develop scientific reasoning with this updated text that encourages them to become better informed, relate concepts from class to their everyday lives and to understand and apply real data to their world and futures. It incorporates instructor feedback and striking infographic figures to convey real data to illustrate how science actually works. Figure Walkthrough Videos guide students through key biology concepts and processes and author-created media offers 24/7 access through Pearson eText and Mastering Biology.

Concepts of Genetics, 12th Edition

William S. Klug, Michael R. Cummings, Charlotte A. Spencer, Michael A. Palladino & Darrell Killian

Print textbook 9781292265322

Mastering + eText 9781292265582

Pack of print textbook + Mastering with eText 9781292265544

Emphasizing the fundamental ideas of genetics, this revised text explores modern techniques and applications of genetic analysis through understandable explanations of complex, analytical topics and focus on developing effective problem solving skills. Important, emerging topics such as CRISPR-Cas and the study of post transcriptional gene regulation in eukaryotes are also addressed in-depth, alongside the ethical considerations of genetics in everyday life – explored through relevant case studies.

General, Organic & Biological Chemistry: 5th Edition

Karen C. Timberlake

Print textbook 9781292275635

Mastering + eText 9781292275789

Pack of print textbook + Mastering with eText 9781292275765

This newly revised edition helps students make connections between the scientific concepts of chemistry and the world around them. It aims to encourage critical thinking that will form a basis for making important decisions about issues concerning health and the environment and their intended careers. Now with more problem-solving strategies and guides, features and problem sets, to help students develop the problem-solving skills they'll need beyond the classroom.

Introductory Chemistry, 6th Edition

Nivaldo J. Tro

Print textbook 9781292229683

eText 9781292435138

Mastering + eText 9781292229850

Pack of print textbook + Mastering with eText 9781292229812

Now in its Sixth Edition, the best-selling *Introductory Chemistry* continues to encourage student interest by showing how chemistry manifests in their daily lives. Author Nivaldo Tro draws upon his classroom experience as an award-winning instructor to extend chemistry from the laboratory to the student's world, capturing their attention with relevant applications and an engaging writing style.

Chemistry: An Introduction to General, Organic, and Biological Chemistry, 13th Edition

Karen C. Timberlake

Print textbook 9781292228860

Mastering + eText 9781292229034

Pack of print textbook + Mastering with eText 9781292228990

This text highlights connections between the structure and behavior of matter and its role in health and the environment through real-world examples. Activities and applications couple chemistry concepts with health and environmental career applications to help students understand why course content matters. This updated edition includes new problem-solving tools and helps students visualize and understand concepts through its engaging figures, sample problems and concept maps.

Chemistry: The Central Science in SI Units, 15th Edition

Theodore E. Brown, H. Eugene LeMay, Bruce E. Bursten, Catherine Murphy, Patrick Woodward & Matthew E. Stoltzfus

Print textbook 9781292407616

eText 9781292407746

Mastering + eText 9781292407654

Pack of print textbook + Mastering with eText 9781292407609

Chemistry: The Central Science uses relevant content to engage students throughout the learning process, building skills that allow them to go beyond recall to effectively solve problems and visualize the atomic nature of the chemistry.

Key features:

- Treatment of energy and thermochemistry significantly revised, allowing instructors greater freedom in the order of coverage.
- Mastering now has more exercises enhanced with feedback and Ready-to-Go teaching modules.

Basic Chemistry, 5th Edition

Karen C. Timberlake

Print textbook 9781292170244

Mastering + eText 9781292170411

Pack of print textbook + Mastering with eText 9781292170374

This updated text introduces students to the essential scientific and mathematical concepts of general chemistry, by relating the structure and behavior of matter to real life. Students are guided through basic chemistry problem solving with a focus on developing the math skills necessary to be successful in the course – as well as relating those core ideas to future careers. Now with more problem-solving strategies, guides and new features.

College Physics: A Strategic Approach, 4th Edition

Randall D. Knight, Brian Jones & Stuart Field

Print textbook 9781292277769

eText 9781292465166

Mastering + eText 9781292278001

Pack of print textbook + Mastering with eText 9781292457819

College Physics: A Strategic Approach presents basic physics, using real world examples to engage students and connect physics with other fields such as biological sciences and architecture. From these connections, students learn in research-driven ways to understand why they are taking the course and how it applies to other areas. The 4th Edition expands its focus from how mixed majors students learn physics to focusing on why they learn physics. Problems use real data to show physics at work and to help students see that physics is the science underlying everything around them.

Physics for Scientists and Engineers: A Strategic Approach with Modern Physics, 5th Edition

Randall D. Knight

Print textbook 9781292438221

eText 9781292438191

Mastering + eText 9781292438184

Pack of print textbook + Mastering with eText 9781292438276

Physics for Scientists and Engineers incorporates Physics Education Research and cognitive science best practices that encourage conceptual development, problem-solving skill acquisition, and visualization. Knight stresses qualitative reasoning through physics principles before formalizing physics mathematically, developing student problem-solving skills with a systematic, scaffolded approach. The text presents a finely tuned, practical introduction to physics with problems that relate physics to everyday life and includes models, modeling, and advanced topics. New and expanded media and assessments in Mastering and the Pearson eText provide fully integrated print and digital resources for both the active and traditional classroom.

MATHEMATICS & STATISTICS

Precalculus, 11th Edition

Michael Sullivan

Print textbook 9781292444529

MyLab + eText 9781292444543

Pack of print textbook + MyLab with eText 9781292444413

Michael Sullivan's time-tested approach focuses students on the fundamental skills they need for the course: preparing for class, practicing with homework, and reviewing the concepts. The 11th Edition continues to evolve to meet the needs of today's students. This series prepares and supports students with access to help, where and when they require it. The hallmark Sullivan cycle of continuous preparation and retention – along with the high-quality exercises that Sullivan texts are known for – gives students the reinforcement they need.

Precalculus: Graphical, Numerical, Algebraic, 9th Edition

Franklin D. Demana, Bert K Waits, Gregory D. Foley, Daniel Kennedy & David E. Bock

Print textbook 9781292079455

MyLab + eText 9781292243016

Pack of print textbook + MyLab with eText 9781292243641

Precalculus: Graphical, Numerical, Algebraic is the leading choice for graphing-intensive courses. This bestseller offers extremely accessible writing and exercises, a balanced approach to problem solving, the most appropriate use of technology and an easier and more consistent transition from Precalculus to Calculus. A principal feature of this text is the balance among the algebraic, numerical, graphical and verbal methods of representing problems: the rule of four.

Thomas' Calculus: Early Transcendentals in SI Units, 15th Edition

Joel R. Hass, Christopher E. Heil & Maurice D. Weir

Print textbook 9781292725901

eText 9781292457611

MyLab + eText 9781292725895

Pack of print textbook + MyLab with eText 9781292725888

Thomas' Calculus: Early Transcendentals is now in its 15th SI Edition. New co-author Christopher Heil (Georgia Institute of Technology) partners with author Joel Hass to preserve what is best about Thomas' time-tested text. The result is a text that goes beyond memorizing formulas and routine procedures to help students generalize key concepts and develop deeper understanding.

Thomas' Calculus in SI Units, 15th Edition

Joel Hass, Maurice D. Weir & Christopher E. Heil

Print textbook 9781292459677

eText 9781292727912

MyLab + eText 9781292459684

Pack of print textbook + MyLab with eText 9781292459707

Thomas' Calculus goes beyond memorizing formulas and routine procedures to help students develop deeper understanding. It guides students to a level of mathematical proficiency and maturity needed for the course, with support for those who require it through its balance of clear and intuitive explanations, current applications and generalized concepts. The 15th Edition meets the needs of students with increasingly varied levels of readiness for the calculus sequence. This revision also adds exercises, revises figures and narrative for clarity, and updates many applications with modern topics.

University Calculus: Early Transcendentals in SI Units, 4th Edition

Joel R. Hass, Maurice D. Weir & George B. Thomas

Print textbook 9781292317304

MyLab + eText 9781292317250

Pack of print textbook + MyLab with eText 9781292317328

This text helps students generalize and apply the key ideas of calculus through clear and precise explanations, thoughtfully chosen examples, meticulously crafted figures and superior exercise sets. It offers the right mix of basic, conceptual and challenging exercises, along with meaningful applications. Every word and figure of this latest edition has been revisited – preserving the text's time-tested features while keeping today's students in mind.

Statistics: The Art and Science of Learning from Data, 5th Edition

Alan Agresti, Christine A. Franklin & Bernhard Klingenberg

Print textbook 9781292444765

MyLab + eText 9781292444673

Pack of print textbook + MyLab with eText 9781292444741

Statistics: The Art and Science of Learning from Data 5th Edition helps you understand what statistics is all about and learn the right questions to ask when analyzing data, instead of just memorizing procedures. It makes accessible the ideas that have turned statistics into a central science of modern life, without compromising essential material. Students often find this book enjoyable to read and stay engaged with the wide variety of real-world data in the examples and exercises. Based on the authors' belief that it's important for you to learn and analyze both quantitative and categorical data, this text pays greater attention to the analysis of proportions than many other introductory statistics texts.

Elementary Statistics: Picturing the World, 8th Edition

Ron Larson & Betsy Farber

Print textbook 9781292469270

eText 9781292737348

MyLab + eText 9781292469294

Pack of print textbook + MyLab with eText 9781292469300

Elementary Statistics: Picturing the World 8th Edition makes statistics approachable with stepped-out instruction, extensive real-life examples and exercises, and a design that fits content to each page to make the material more digestible. Its combination of theory, teaching and learning aids, and design helps students understand concepts and use statistics to describe and think about the world. *Elementary Statistics: Picturing the World*, 8th Edition makes statistics approachable with stepped-out instruction, extensive real-life examples and exercises, and a design that fits content to each page to make the material more digestible. Its combination of theory, teaching and learning aids, and design helps students understand concepts and use statistics to describe and think about the world.

Statistics, 13th Edition

James T. McClave & Terry T. Sincich

Print textbook 9781292161556

MyLab + eText 9781292187501

Pack of print textbook + MyLab with eText 9781292161655

This text offers a trusted, comprehensive introduction to statistics that emphasizes inference and integrates real data throughout. The authors stress the development of statistical thinking, the assessment of credibility and value of the inferences made from data. This new edition is extensively revised with an eye on clearer, more concise language throughout the text and in the exercises. This text assumes a mathematical background of basic algebra.

Essential Statistics, 2nd Edition

Robert N. Gould, Colleen N. Ryan &
Rebecca Wong

Print textbook 9781292161228

MyLab + eText 9781292187471

Pack of print textbook + MyLab with eText
9781292161327

With today's data-driven world in mind, the goal of this text is to teach students how to access and analyze data critically. Regardless of their math backgrounds, students will learn how to think about and reason using data. With a clear, approachable writing style and carefully chosen pedagogy, this text makes data analysis accessible to all students.

Introductory Statistics, 10th Edition

Neil A. Weiss

Print textbook 9781292099729

MyLab + eText 9781292187495

Pack of print textbook + MyLab with eText
9781292099842

Emphasizing statistical reasoning and critical thinking, this text offers careful, detailed explanations to ease the learning process. A data-driven approach encourages students to apply their knowledge and develop statistical understanding. This edition contains parallel presentation of critical-value and p-value approaches to hypothesis testing – allowing flexibility to concentrate on one approach or the opportunity for greater depth in comparing the two.

Essentials of Statistics, 5th Edition

Mario F. Triola

Print textbook 9781292058764

MyLab + eText 9781292243108

Pack of print textbook + MyLab with eText
9781292071091

From SAT scores to job search methods, statistics influences and shapes the world. This text helps students understand the relationship between statistics and the world, bringing life to the theory and methods. It incorporates real and interesting data that will help instructors connect with students today, and help them connect statistics to their daily lives.

IT/CIS

Technology in Action: Complete, 18th Edition

Alan Evans, Kendall Martin
& Mary Anne Poatsy

Print textbook 9781292728209

eText 9781292459974

MyLab + eText 9781292459967

Pack of print textbook + MyLab with eText
9781292459950

Best-selling *Technology in Action Complete* uses practical content and hands-on projects to teach students computing tasks and skills they can apply at work, in class, or at home. Designed for today's technically savvy student, the text introduces difficult concepts at a basic level early on, then expands upon these skills as you build mastery. The 18th Edition includes updated information on Windows 11 and reflects advancements in Wi-Fi 6e, 5G mobile broadband, home networks and smart home communication protocol matter. New exercise topics focus on careers and security.

Information Systems Today: Managing in a Digital World, 9th Edition

Joseph Valacich & Christoph Schneider

Print textbook 9781292438115

MyLab + eText 9781292438139

Pack of print textbook + MyLab with eText 9781292438108

Information Systems Today: Managing in the Digital World opens each chapter with a case study so students can quickly understand how and why information systems are essential in today's evolving business landscape. The authors selected cases that highlight real-world companies, technologies, and issues that illuminate the chapter topics. Aligning major concepts with the latest trends, the 9th Edition expands its exploration of the ways digital density and the API economy, mobile and cloud computing, social media, artificial intelligence, and the Internet of Things affect information systems.

ECONOMICS & FINANCE

Foundations of Economics, 9th Edition

Robin Bade & Michael Parkin

Print textbook 9781292434230

eText 9781292434193

MyLab + eText 9781292434148

Pack of print textbook + MyLab with eText 9781292434209

Foundations of Economics introduces you to economic principles you can use to navigate the financial decisions of your future. Each chapter concentrates on a manageable number of ideas, usually 3 to 4, with each reinforced several times throughout the text. This patient approach helps guide you through unfamiliar terrain and focuses you on the most important concepts and key skills, like reading and interpreting graphs. The 9th Edition motivates with compelling issues and encourages learning with practice questions, to help you grasp and apply economic principles to the real world.

Microeconomics, 14th Edition

Michael Parkin

Print textbook 9781292434599

eText 9781292434650

MyLab + eText 9781292434629

Pack of print textbook + MyLab with eText 9781292434605

Microeconomics gets students to think like economists by incorporating the latest policy, data and discussions on important global issues. The 14th Edition emphasizes real-world applications, the development of critical-thinking skills, diagrams renowned for their pedagogy and clarity, and path-breaking technology. Hallmark features in the chapter openings and endings encourage students to think critically about a news article relating to the issue, demonstrating how thinking like an economist can bring a clearer perspective to, and deeper understanding of, today's events.

Macroeconomics, 14th Edition

Michael Parkin

Print textbook 9781292433608

eText 9781292433509

MyLab + eText 9781292433455

Pack of print textbook + MyLab with eText 9781292433547

Macroeconomics gets students to think like economists by incorporating the latest policy, data and discussions on important global issues. The 14th Edition emphasizes real-world applications, the development of critical-thinking skills, diagrams renowned for their pedagogy and clarity, and path-breaking technology. Hallmark features in the chapter openings and endings encourage students to think critically about a news article relating to the issue, demonstrating how thinking like an economist can bring a clearer perspective to, and deeper understanding of, today's events.

MyLab + eText 9781292433653

Pack of print textbook + MyLab with eText
9781292433707

Economics, 14th edition, encourages critical thinking in your students, teaching them how an economist can bring a clearer perspective to today's events. Incorporating the latest policy and data, the text uses resources such as news articles and diagrams to deepen your students' understanding and equip them to join in discussions of global issues. With an emphasis on real-world applications and path-breaking technology, this intuitive textbook will equip your students for a successful career in economics.

Principles of Macroeconomics, 13th Edition

Karl E. Case, Ray C. Fair
& Sharon E. Oster

Print textbook 9781292303826

MyLab + eText 9781292303932

Pack of print textbook + MyLab with eText
9781292303918

Renowned as one of the all-time bestselling principles of economics texts because of its clear, thorough and complete approach. Readers of *Principles of Macroeconomics* come away with a basic understanding of how market economies function, an appreciation for the things they do well and a sense of things they do poorly. With the latest research and added exercises, students begin to learn the art and science of economic thinking and start to look at some policy and even personal decisions, in a different way.

Principles of Microeconomics, 13th Edition

Karl E. Case, Ray C. Fair
& Sharon E. Oster

Print textbook 9781292303930

MyLab + eText 9781292303512

Pack of print textbook + MyLab with eText
9781292303499

This bestselling principles of economics text uses clear, thorough and complete language throughout. *Principles of Microeconomics* offers students a basic understanding of how market economies function and an appreciation of when they are successful and when they are failing. With the latest research and added exercises, students will learn to appreciate the art and science of economic thinking and start to look at some policy, and even personal decisions, differently.

Principles of Economics, 13th Edition

Karl E. Case, Ray C. Fair
& Sharon E. Oster

Print textbook 9781292294698

MyLab + eText 9781292294803

Pack of print textbook + MyLab with eText
9781292294810

An introduction to the functioning of the economy and the power and breadth of economics. *Principles of Economics* gives readers a basic understanding of how market economies function and how to recognize when those markets are functioning well and when they are not. Updated research and exercises will help students to see the art and science of economic thinking and consider policy, and even personal decisions, in an alternative way.

Macroeconomics, 10th Edition

Andrew B. Abel, Ben S. Bernanke
& Dean Croushore

Print textbook 9781292446127

MyLab + eText 9781292446097

Pack of print textbook + MyLab with eText
9781292446066

This updated edition takes a unified approach to both classical and Keynesian economics, based on a model that provides a clear explanation of macroeconomics. It features new applications, boxes and problems throughout and reflects recent events and developments in the US and Europe. Comprehensive coverage makes it easy for instructors to align chapters to fit their own syllabi, and for students to analyze real macroeconomic data used by policy makers and researchers.

Essentials of Economics, 4th Edition

R. Glenn Hubbard &
Anthony P. O'Brien

Print textbook 9781292059433

MyLab + eText 9781292079196

Pack of print textbook + MyLab with eText
9781292059792

The latest edition of this text makes economics relevant to students' lives by demonstrating how real businesses use economics to make decisions every day. Regardless of their future career path, students will benefit from understanding the economic forces behind their work.

Microeconomics, 5th Edition

R. Glenn Hubbard &
Anthony P. O'Brien

Print textbook 9781292059457

MyLab + eText 9781292072425

Pack of print textbook + MyLab with eText
9781292059785

The latest edition of this text makes microeconomics relevant to students' lives by using real-world examples to demonstrate how businesses use economics to make decisions every day. Students will benefit from understanding the economic forces behind their future work, whatever their career path.

Macroeconomics, 5th Edition

R. Glenn Hubbard
& Anthony P. O'Brien

Print textbook 9781292059440

MyLab + eText 9781292071916

Pack of print textbook + MyLab with eText
9781292059778

This text reveals the relevance of economics through real-world business examples. One of the challenges of teaching Principles of Macroeconomics is fostering interest in concepts that may not seem applicable to students' lives. *Macroeconomics* makes economics relevant by demonstrating how real businesses use economics to make decisions every day.

Foundations of Finance, 10th Edition

Arthur Keown & John Martin

Print textbook 9781292318738

eText 9781292439976

MyLab + eText 9781292318844

Pack of print textbook + MyLab with eText
9781292318837

Bolstered by real-world vignettes, cases and problem exercises, this revised edition offers a foundational approach to the key concepts of finance. It utilizes a multi-step approach to financial problem-solving that appeals to students' (at all levels) math and numerical skills. With a focus on valuation and cases based on financial decisions faced by contemporary, real-world companies and firms, the text includes new lecture videos, financial thinking and user feedback.

PSYCHOLOGY

Psychology, 6th Edition

Saundra K. Ciccarelli
& J. Noland White

Print textbook 9781292353548

Revel digital version 9781292353494

Throughout *Psychology*, Saundra Ciccarelli and J. Noland White employ a learner-centred, assessment-driven approach that maximizes engagement and helps educators keep students on track. The authors draw readers into the discipline by showing how psychology relates to students' own lives. Clear learning objectives, based on the recommended APA undergraduate learning outcomes, guide learners through the material. And assessment tied to these learning objectives lets students check their understanding, while allowing instructors to monitor class progress and intervene when necessary to bolster learner performance.

Social Psychology, 9th Edition

Michael A. Hogg & Graham M.
Vaughan

Print textbook 9781292352831

eText 9781292737645

Revel digital version 9781292405438

This revised text offers a comprehensive, lively introduction to social psychological theory and research. It places social psychology in a contemporary, real-world context and explores new, cutting-edge research as well as bringing classic theories to life.

Educational Psychology, 14th Edition

Anita Woolfolk

Print textbook 9781292331522

MyLab + eText 9781292331645

Pack of print textbook + MyLab with eText
9781292331621

New edition coming 2024

In clear and jargon-free prose, *Educational Psychology: Active Learning Edition*, explains and illustrates educational psychology's practical relevance for teachers and learners. Theory and practice are considered together, showing how research on child development, learning, cognition, motivation, instruction and assessment can be applied to solve the everyday problems of teaching. The 14th Edition offers a state-of-the-art presentation of the field of educational psychology, with new and expanded coverage of important topics like the brain, neuroscience and teaching; the impact of technology and virtual learning environments on the lives of students and teachers; and diversity in today's classrooms.
