Introductory Psychology

Psychology, 6e
Sandra Ciccarelli
& J. Noland White
©2020 • 848pp • Paperback
Available with Revel

Course: Introductory Psychology: Comprehensive
Throughout *Psychology*, Sandra Ciccarelli and J. Noland White employ a learner-centred, assessment-driven approach that maximizes student engagement and helps educators keep students on track. The authors draw readers into the discipline by showing how psychology relates to students' own lives. Clear learning objectives, based on the recommended APA undergraduate learning outcomes, guide learners through the material. And assessment tied to these learning objectives lets students check their understanding, while allowing instructors to monitor class progress and intervene when necessary to bolster student performance.

Psychology: Core Concepts, 7e
Philip G. Zimbardo,
Robert L. Johnson & Vivian McCann
©2013 • 776pp • Paperback
Available with MyLab Psychology

Course: Introductory Psychology: Comprehensive
At just fourteen chapters, *Psychology: Core Concepts* provides rich coverage of the foundational topics taught in most introductory courses. It focuses on a manageable number of core concepts (usually three to five) in each chapter, allowing students to attain a deeper level of understanding of the material. Learning is reinforced through focused application and critical thinking activities and connections between concepts are drawn across chapters to help students see the big picture of psychology as a whole. The Seventh Edition features an enhanced critical thinking emphasis, with new chapter-opening problems and new end-of-chapter critical thinking applications that promote active learning.
