Mario Herrera

ON BIG ENGLISH

“What matters to me most are the things teachers care about and issues teachers face in the classroom. You all want the best for your students. You want them to be self-sufficient learners; and you want to help them pass their exams. And when it comes to the classroom materials, you all agree on one thing - keep it simple. Show us the steps to integrate all these critical things into our daily lessons but keep it streamlined and manageable. Make it fun but also make it achievable. So I have taken your advice to heart... everything you said you wanted and the teacher support items you said you needed.”

We wanted students to use 21st century skills to expand their knowledge and learn English within a framework of culture and citizenship. Students and their teachers have a range of dynamic, new, digital and print materials for use in class and at home. Online, offline and digital content creates an environment that is fun, fast-moving and familiar for students who are digital natives. And for less digitally native teachers-or digital tourists-it provides a user friendly tool which enhances the teaching experience.

Pearson MyEnglishLab Efficacy Study, October 2013

APPROVED BY TEACHERS

Edward Duval, English Language Teacher, Royal Academy, Antwerp

"...my students really enjoy Choices because they don't believe they're learning in a classical way...these days, it's all in the context. The children use their own language; their own English. They enjoy doing their work at home, digitally. With MyEnglishLab I can give them four or five different exercises and they don't really complain."

Viviana Valenti, Director of LET'S GO, Argentina

"Something caught my attention immediately, and I realised this is not an ordinary book... through all the four skills, there is one common objective underlying everything: autonomy. It helps students gain control over their knowledge."

Silvia Srvic, ELT Teacher, Croatia

"What I liked in the classes was the Culture Choice, Language Choices, and basically the whole concept of giving choice to students and teachers. The students enjoy being challenged."

TALK ABOUT CUTTING EDGE 3RD EDITION

It's a very exciting time to be involved on learning a language because there is just so much out there. The challenge is how to make sense of it.

People realise the internet is out there and there's lots of English on it but it's very, very difficult for a student to find their way through that information. So what we tried to do is guide them carefully, so that task becomes something manageable, do-able.

These are the kinds of skills people need nowadays and this is what people are doing – researching things on the internet, so the more we can connect the classroom material with the real world out there, the better.

Speakout

Antonia Clare, Frances Eales, Steve Oakes, JJ Wilson

British English • 6 Levels • CEF A1 – C1

Developed in association with BBC Worldwide and BBC Learning English, Speakout brings the real world into your classroom.

With its authentic material from the BBC, **Speakout** exposes students to language as it is really used, giving them confidence to communicate. Lessons cover all four skills, grammar and vocabulary. Each unit ends with a lesson based around an extract from a BBC programme which provides a springboard for speaking and writing tasks. Street interview videos filmed by the BBC also give students access to authentic English.

MyEnglishLab for **Speakout** is the online component designed to complement your course (see pages 4 & 5).

ActiveTeach, for IWBs is full of resources to use in class.

“**Speakout** instantly brings English into life through its role plays, podcasts and BBC programmes. Thanks for such a wide range of authentic context, my students can easily apply newly-learnt constructions into active daily use.”

Joanna Sulek, Warsaw, Poland

Academic Connections

Betsy Cassriel, Marit ter Mate-Martinsen, David Hill, Julia Williams

American English • 4 Levels • CEF A2 – C2

Developed with the Educational Testing Service (ETS).

Academic Connections is based on extensive research into the English language demands of higher education. It is an integrated skills course perfect for students preparing for academic study and tests such as the TOEFL iBT®.

Step-by-step academic skills development helps students to organize information, make connections and think critically. Authentic tasks include: lectures, note-taking activities, debates, oral and written reports and essay writing.

The Student Book and teachers' notes are fully blended with a **MyEnglishLab** component (see pages 4 & 5).

"Have recently used – with amazing success – Academic Connections. Students' acceptance of these tests was highly gratifying. As preparatory tests for academic English, they are excellently written and produced. Extensive online materials for self-study and interaction."

Bill Kerr, Koç Üniversitesi, Istanbul

"The online resources provide an opportunity to preview target vocabulary and content, engage students in blended learning activities and review or expand on the learning targets for more differentiated instruction - keys in the innovative program we are seeking to deliver."

David Hill

ON ACADEMIC CONNECTIONS

I very much enjoyed working on the Academic Connections series. With its innovative integrated task-based approach and high interest topics, it should engage a wide range of students heading for academic study in English. One of the most enjoyable aspects was searching for the authentic material that had to do two things: be sufficiently high interest to engage every student, and to be representative of the lectures and reading that students would have to do in their tertiary studies. These materials form the basis for tasks that integrate the skills and help students learn how to succeed in the assignments they will be set at university.

SPEAKS GRAMMATICALLY

By teaching grammar, I don't mean teaching rigid "rules." I mean helping students see how English works and giving them lots of opportunities to experiment with their new language and gain confidence. A grammar base leads to interviews, round-robin stories, information sharing, games, small group discussions — the list goes on. Grammar becomes a springboard to successful communication experiences, the building blocks of second language acquisition.

It's important to note that grammar-based and communicative approaches are not mutually exclusive. Indeed, just the opposite is true. They fit hand in glove. A great deal of research shows that combining a grammar focus with communicative methods accelerates learning.”

Focus on Grammar

Irene E. Schoenberg, Jay Maurer, Majorie Fuchs, Margaret Bonner,
Miriam Westheimer

American English • 5 Levels • CEF A1 – C1

This contextualized and integrated 4 skills approach supports accuracy in grammar and fluency.

The 4th edition has updated Charts and Notes that have been streamlined for greater clarity and ease of instruction. More assessment, more skills development and updated readings bring more focus.

MyEnglishLab for Focus on Grammar, (see pages 4 & 5 for more information), offers online homework and individualized instruction, anywhere, anytime.

“Focus on Grammar helps EFL students... to acquire grammar skills to put into use, instead of just answering test/exam questions. Also it helps students recognize knowing the rules is not the goal of learning grammar.”

TALKS ABOUT TEACHER DEVELOPMENT

“In the day-to-day reality of a teacher’s hard-pressed life, it’s sometimes difficult to remember what teaching is really for!”

I can still remember my first teaching practice in front of real students, it was terrifying! Like so many people I didn’t know even the basics, so where do you find that initial knowledge or develop your skills further?

Today teachers want books that are enjoyable, informative, fun and easy to read and we hope that’s what you’ll find here.

Just remember, even if you’re only half as good as most teachers are, something extraordinary will happen as you walk through the door and the teacher in you kicks in. It may not be the best lesson ever, nor the nicest group you’ve ever taught, but when the magic works, you suddenly know with a great sense of satisfaction exactly what teaching is for.

Essential Teacher Knowledge

Jeremy Harmer

“This book takes topics that have been treated in an academic manner for years and turns them into hands-on classroom approaches, accessible to even very inexperienced teacher.” - Roger Hunt, Judge, Ben Warren Prize 2011

Essential theory, practical teaching advice and classroom ideas all presented across two page units, in full colour. Written in accessible English, **Essential Teacher Knowledge** is ideal preparation for TKT and other entry-level teacher qualifications or as a handbook for any EFL teacher.

Also included in the book are:

- DVD showing key teaching techniques and teachers from around the world sharing opinions and ideas about key issues for the global English teaching community
- PIN-coded access to extra online material

NO COPYING, SINGLE OR MULTIPLE, OF VIDEO CASSETTES IS PERMITTED.

The law allows for a reader to make a single copy of part of a book for purposes of private study. It does not allow the copying of entire books or the making of multiple copies of extracts.

Under no circumstances may schools photocopy materials for use in self-access centres, unless they have registered with CLA or an associated licensing agency and allow / use photocopying strictly in accordance with their regulations. If a school wishes to have multiple copies of a part of a book in a self-access centre, then it must purchase the necessary number of printed books. There is no formal objection to schools physically cutting printed texts into parts and reassembling them in a way that seems appropriate, providing the books or parts of books are not then resold. It is not, however, a practice we would recommend.

In the case of audio recordings, it is permissible for a school to make a copy of an audio tape, keeping the original as a back-up. Only one copy may exist at any one time. A school may copy different parts of an original audio tape onto several cassettes, providing that no part of the original exists in more than one copy at any one time. Therefore, if a school wishes to have three copies of one part of an audio tape, it must have three originals.

All the information contained in this catalogue is correct at the time of going to press (September 2013) and is subject to change without prior notice.
