192pp • Paperback

eBook version available

### Course: Argument

*Asking the Right Questions* helps students bridge the gap between simply memorizing or blindly accepting information and the greater challenge of critical analysis and synthesis. The text teaches students to think critically by exploring the components of arguments – issues, conclusions, reasons, evidence, assumptions, language – and on how to spot fallacies and manipulations and obstacles to critical thinking in both written and visual communication. It teaches them to respond to alternative points of view and develop a solid foundation for making personal choices about what to accept and what to reject.

### Course: Technical Writing

Students want their textbooks to cost less and they want comprehensive topical coverage presented in a succinct and clear writing style. *Technical Communication Strategies for Today* offers both and speaks to today's students. Instructional narrative is "chunked," so that portions of text are combined with graphics. The chunked presentation also integrates an awareness of how documents are read – often skimmed by readers seeking the information they need and it models the way today's technical documents should be designed.
